STATEMENT:
Dear friends and neighbors,

I’m running to represent the citizens of northeast Anchorage. As I’ve been out knocking doors and talking to voters, my key priorities have sharpened to the following:

- Ensure a quality education for Alaskans: As a long-time educator, I know the education of our youth is key to our state’s long-term success. I will support an education system for Alaska that attracts and retains the best teachers and curricula that prepares our kids for a bright future.
- Support working families: Working families are the backbone of Alaska. We are experiencing a childcare and affordable housing crisis, and I will work to reduce barriers for working people wanting to live, work, play, and retire in Alaska.
- Maintain and grow critical infrastructure: Alaska is a wonderful place to live, but our communities need high-quality, well-maintained infrastructure to prosper. I support strong state investments in maintaining and growing critical infrastructure such as roads, ports, and airports, in addition to broadband and energy infrastructure
- Strengthen our economy: Alaska’s economy centers on natural resource development, tourism, and fisheries. By further diversifying our economy, we can strengthen and enhance it. Northeast Anchorage has a vibrant small business community, and I will support these job creators. I support a consistent and robust PFD.

I have given my life to public service doing meaningful work. I would like to continue this work as your representative in the State House. I humbly request your support and vote. Thank you.
Ted
